Jason Neighbors.com

objective To enhance the way people interact with all types of media through the merging of art and logic.

experience

Jason Neighbors Web Design • Sole Proprietor • Lakewood, WA

2000-present

Creation of complete website solutions from layout, custom art, logo creation and animation, presentations, front end implementation, database-driven websites, e-commerce platforms, and back end management.

Development of print media including brochures, posters, logo creation, business cards, book publishing, magazine advertisements and general graphic design needs.

Created an app featured in the New York Times tech blog that streams the human genome in relation to time.

Jason Jason Inc. • Partner • Tacoma, WA

2009-present

Development of comprehensive website and print solutions, from concept design to final implementation.

Won 3 awards for the Puyallup Fair, including Best Use of Social Media and 1st place for Innovative Marketing.

Created a twelve hour live-streaming event for legendary boxer Greg Haugen, which included interviews with experts in the field of autism, Tweets and call-ins, and making the 11 o'clock news before the campaign ended.

Organized a cross-country speaking tour to promote a book and its online application tie-in.

Mafi International • Regional Manager/Technology & Marketing • Seattle, WA

2006-2010

Worked directly with the company owner, store owners, store managers, salespeople, and customers to create support material, track sales histories and goals through customized ratio-based spreadsheets and charts, trained staff and management, and delegated and tracked projects with management.

Mafi International • Department Manager/Technology & Marketing • Seattle, WA

2002-2006

Created complex websites featuring built-in tag making and catalog page printing functionality, as well as customized product sheets used as selling tools.

Created brochures, signage, logo work and print ads.

Managed the sales and organization of the most profitable department in company; included educating salespeople and customers, selling directly in-house and through home consultations, and tracking sales.

University of Puget Sound • Multimedia Development Assistant • Tacoma, WA

1998-2000

Designed and created interactive Flash applications and on-line curriculum in conjunction with faculty.

Led presentations at various consortiums on the advances we were making in the field.

Proficiently trained others to use Flash, Photoshop, Dreamweaver, and various FTP applications.

University of Puget Sound • Passages Program Student Coordinator • Tacoma, WA

1999

Took lead in the training of 58 student leaders for an orientation program listed among the top five in the nation.

Coordination of leaders, camp sessions and events for the over 500 students of the week-long event.

Center for Education & Technology • Multimedia Designer • Middlebury, VT

1998-1999

Spent six weeks working intensely with professors to create specialized web page interfaces and applications.

Trained new co-workers in Flash, ActionScript and Dreamweaver.
